

What We Fund

Catalyst will consider grant requests for activities across the full range of academic disciplines. Grants typically are awarded in one of three categories:

1. *Outside the classroom* – family support programs, i.e., supplies, health, safety, etc., that target resource gaps that may inhibit student academic success.
2. *Inside the classroom* – Student awards and recognition, and support for innovative teaching methods that achieve uncharacteristically successful outcomes, often through non-traditional means.
3. *Strategic initiatives* – broad-reaching programs with high likelihood to deliver transformative change at the grade, school and/or district level.

Catalyst does not award grants for capital improvements or other expenses that clearly fall under the financial responsibility of KCPS.

An education foundation for
